MEMORANDUM FOR THE RECORD

SUBJECT: Conversation with []

25X1

On Tuesday, 13 January 1948, I interviewed [] with reference to the allegations made by him relative to the appointment of [] as Acting Shift Supervisor and with reference to his allegation that the workload in the Monitoring Section was unequally distributed.

25X1

I informed [] that I had satisfied myself by adequate and proper investigation that the workload in the Monitoring Section was not unequally distributed, and, as a matter of fact, it appeared to me that the day shift at the present time carried a heavier load than the night shift. [] agreed with me that this was correct at the present time and said that his statements were made on the basis of a situation which existed last summer.

25X1

I further advised [] that after careful consideration [] was the logical choice of those to be considered for appointment as Acting Shift Supervisor, Monitoring Section, and that I would determine after [] has served in this capacity a reasonable length of time whether or not he should be appointed to this job on a permanent basis.
